

## **Balanced:**

I read books from many different genres.

## **Open-Minded:**

I don't judge a book by its cover!  
I read a page and then decide.

**Thinker:** I put research findings into my own words. “What is the best way for me to say this?”

## **Knowledgeable:**

I know how to search for what I need and find it for myself.

**Risk-Taker:** I am willing to try something different from what I normally read.

**Reflective:** I think about what I've read or learned. "How can I use this information?"

**Principled:** I take responsibility for myself and for the materials I have borrowed from the library.

## **Communicator:**

I can share a review of a good book with a friend.

**Inquirer:** I dig deeper! “Can I research this more?” “Are there other books by this author?”
