During weeks when we miss school for holidays, I will make every attempt to reschedule during the 'pi' times. Those times are provided for classroom push in support of daily lessons. They are first come, first served. Please don't ask to schedule more than a couple of times per week or a single time for more than 3 weeks.

As always, I truly appreciate your help in determining importance for lessons and skills needed for your students. I can make stuff up, but that's not what's best for the mermaids! Let's plan to meet regularly as a team to do what is best for the lessons to be most meaningful.

If you have tech support problems or questions, please submit work orders through our computer support icon on the Dell in your room or someone else's room using your novel login.
